

'Pulse' Forecast in Two Days

March 31, 2014

The Port of Long Beach's 10th annual Pulse of the Ports Peak Season Forecast is just two days away. Speakers will discuss the industry trends expected to influence this year's peak shipping season.

Just last week, the Federal Maritime Commission approved the "P3" alliance formed by Maersk, MSC and CMA CGM. How will these mega-alliances affect the ports of Long Beach and Los Angeles?

After years of discussion, the San Pedro Bay port complex may be moving toward adopting an interoperable, gray chassis pool. Will this streamline efficiency and result in faster turn times?

There will be a Q & A segment. Email your questions to pulse@polb.com or tweet your questions using the hashtag [#pulseoftheports2014](https://twitter.com/pulseoftheports2014).
