Fall 2006

Free Port boat tours will be offered, along with many other activities, at the Oct. 7 Green Port Open House.

See, Learn, Discover

Open House to Showcase Environment

Come see how the Port of Long Beach is improving the environment – and learn more about how a global seaport operates – at the second annual Green Port Open House, Saturday, October 7.

The free event will feature boat tours of the Port, entertainment, environmental presentations, food, children's activities and more. The Open House will be from 10 a.m. to 2 p.m. at the Port Administration Building, 925 Harbor Plaza.

The Open House will showcase the Port's wide-ranging Green Port Policy environmental protection programs. Members of the public are also invited to join one of the free 45-minute harbor cruises that will take visitors out on the water to see the Port's environmental programs in action. Festivities are planned for the entire family, including entertainment, free food and activities for children.

Last year's Open House event drew more than 2,000 people who learned about the Port's groundbreaking Green Port Policy – a sweeping framework for how the Port is addressing environmental impacts and changing the very way it does business.

For more information, please visit the Port's web site at www.polb.com or call (562) 590-4121.

GREEN PORT OPEN HOUSE
