

Show Captures Port's Big Ships, Projects, Dreams and Cargo

Latest 'Pulse of the Port' video program available online

April 9, 2012

The latest "Pulse of the Port" episode is available for viewing with a wide variety of video coverage including the Port's readiness for megaships, the Middle Harbor redevelopment project, educational outreach, and moving outsize cargo.

A new generation of massive cargo ships is plying the seas and the Port of Long Beach is "Big Ship Ready" with deep, wide channels, the latest wharfs and experienced know-how. Recently the megaship MSC Fabiola made its first call to North America at the Port of Long Beach. To see how the Port is in sync with the evolving global shipping industry, [click here](#).

The Middle Harbor Redevelopment Project is moving along, and the Port has partnered with Pacific Gateway in preparation for filling the thousands of temporary and permanent jobs that will be generated by the project. To find out more, [click here](#).

Teachers from the Long Beach Unified School District visited the Port of Long Beach recently to learn more about how the Port can help educators use real-world examples from the shipping industry to show students the importance of a good education. To see how the Port is reaching out to educators, [click here](#).

Not everything that comes through the Port of Long Beach fits neatly into a cargo container. How do the windmills, recreational vehicles, and helicopters get shipped? To see the answer to that, [click here](#).
